Year 1 Phonic Screening Check (6 year olds)

At the end of Year 1 children are tested on their ability to match sounds with letters. This assessment is known as the Phonics Screening Check. 'Sounding out words' using phonological awareness and understanding of sound-letter correspondence is a key early reading skill. Using phonology is not the only way children learn to read – they employ a range of other strategies – but being good at phonics is seen as a most important starting point. The standard is achieved if children achieve 32 marks or more.
