

Maths Competition

Name: _____ Year: _____ Class: _____

What makes a good mathematician?

In this competition, you will need to create a little picture which relates to each of the statements to put on the poster. You can use symbols, draw cartoons, write key words, use colours... just remember it has to be drawn by you! Your work could be featured in every Wellington Maths book.

<p>1) I am curious. I love asking questions and exploring new ideas.</p> 	<p>2) I am not afraid to make mistakes. Mistakes help me to learn.</p> 	<p>3) I am patient. I do not give up even when the problem is hard.</p> 
<p>4) I enjoy solving puzzles. I find joy in figuring things out.</p> 	<p>5) I practise regularly. I understand that practice makes me stronger at Maths.</p> 	<p>6) I am willing to try different ways. I try new methods if the first one doesn't work.</p> 
<p>7) I pay attention to detail. I check my work carefully.</p> 	<p>8) I am confident. I believe that I can solve problems with effort and time.</p> 	<p>9) I work well with others. I share ideas and listen to others.</p> 

All entries must be handed to Miss Mistry, Mrs Strange, Mrs Pannu or Mrs McCarthy by Monday 18th November!
